PILOT REVIEW SHEET · FOR THE RECEIVING TEAM

Evaluate the handoff in your workflow.

Use comparable studies where possible. Record estimates as estimates, and separate preparation time from the physician's independent interpretation.

Review period	_____
Organization / reviewer	_____
Study type / reviewed lengths	_____
Number of studies	_____

Preparation time

Measure	Before / usual workflow	With prepared handoff
Preparation minutes per study (same definition and comparable scope)	_____	_____
How time was measured (timed, logged, or estimated)	_____	_____

Quality & delivery

Review item	Notes / result
Source references easy to follow?	_____
Report clear and appropriately scoped?	_____
Corrections requested / materiality	_____
Delivery against agreed schedule	_____

Decision for the next engagement

Continue as scoped [ ] Adjust the format or scope [ ] Do not continue [ ]

Changes requested: _____

_____

Keep patient identifiers out of this sheet. Use only your organization's approved process for any case-level clinical feedback. A small pilot is workflow feedback, not a diagnostic-validation study.
